WORK EXPERIENCE

Junior UI/UX Designer | Proteus-DT Sdn Bhd   Mar 2024 - Feb 2025

- Worked closely with the team to brainstorm ideas, develop user flows, and create sitemaps, all aimed at gaining a deep understanding of the user journey.
- Collaborated with the project manager to thoroughly understand the system and user goals, ensuring the product aligned with client expectations.
- Designed a user-friendly dashboard for an order management system to track real-time data and streamline workflows.
- Successfully developed and launched 4+ websites using no-code platforms like Wix Studio and Wordpress, consistently delivering projects on time and exceeding client expectations with high-quality, fully functional sites.
- Created over 10+ detailed website prototypes and proposals, facilitating client approvals and speeding up the development handoff.
- Actively participated in client meetings to gather user requirements, ensuring clear project scope and aligning design solutions with business needs.

UI/UX Intern | Orangesoft Sdn Bhd   Dec 2022 - Feb 2023

- Designed low-fidelity wireframes and mockups for websites.
- Performed user research, created user personas, and developed technical guides outlining system functionalities.

EDUCATION

Monash University Australia   July 2018 - Dec 2023

Bachelor of Information Technology - Major in Software Development
CGPA: 3.55

FIT3047/FIT3048 Industry Experience Project

- Collaborated with a team of four over the course of a year to improve a client's website by incorporating new features and redesigning its interface.
- Applied Agile Scrum methodology and daily stand-ups for project management.
- Exploring and learning a new language like CakePHP to further enhance and add new features to the system.
- Worked together with my team members to develop and add new features to an existing system.
